

Comma

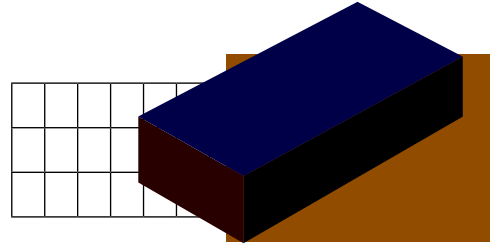

For the first time in New Jersey City University's history, NJCU students, alumni, faculty, staff, and parents will have a special opportunity to leave a lasting legacy on campus through the purchase of a commemorative brick. With the development of the new Science Building on campus, NJCU is providing the unique opportunity to create your legacy on the newly established walkway directly in front of the building—a legacy that will last a lifetime.

Commemorative bricks are a wonderful way to honor a recent graduate, alumni, favorite professor, friend, family member, colleague or even yourself. The possibilities are endless. In doing so, you will also be making a vital contribution to the growth and development of the campus community.

Choose from engraved single or double bricks, any of which can serve as your very own landmark at NJCU. Your brick will demonstrate to generations to come that the NJCU community is dedicated to building strong futures through educational excellence.

Comma
